

SPECIALISED LINEHAUL

BT has two specialised divisions that provide specialised linehaul, as well as door-to-door services and related logistics services: LDJ Logistics and S&S Freight Services.

Our Services

Our specialised linehaul services include:

- Refrigerated, frozen, ambient temperature and dry freight
- Palletised freight
- Non-palletised & small equipment transport (including slightly oversized freight)
- Weather-sensitive freight
- Warehousing & Distribution (dry freight)
- Warehouse & Cross Dock services

We can provide complete logistics and supply chain solutions, including 3PL.

REGULAR ROUTES

We operate regular services between capital cities and major provincial towns, including:

- Adelaide
- Brisbane
- Melbourne
- Mount Gambier
- Sydney

These include full load Single and B-Double ambient, temperature-controlled, refrigerated, frozen and general freight.

Daily Services between Adelaide and Melbourne

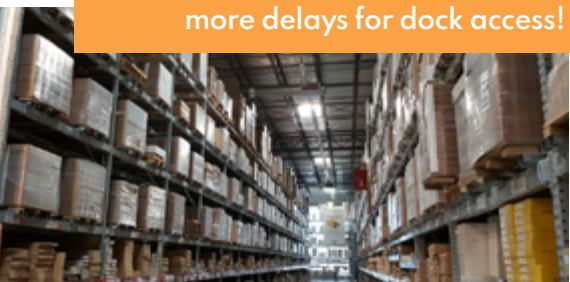

and regional pickups
from: Beachport | Bordertown
Coonawarra | Kingston
Lucindale | Millicent | Mundulla
Nangwarry | Naracoorte
Padthaway | Penola | Robe

Our vehicles
offer an enclosed
environment, which
protects your cargo
from the elements

Flexible Loading and Unloading

Curtainsiders allow for both
rear dock and side loading and
unloading, which can be done
anywhere and at any time. No
more delays for dock access!

and distribution services
for dry freight

Our Capabilities

Our specialised linehaul capabilities include the following:

- Range of Tautliners with capacity for up to 14 pallets
- Vehicle configurations to suit your requirements
- Standard and oversize pallets
- Pallets or cartons
- Extra high loads (4.6 high tautliners)
- Full truck loads or individual consignments
- Refrigerated freight transport and storage
- Ambient temperature freight transport and storage
- Temperature-controlled warehousing services
- Logistics and network design, including permits & authorisations

Specialised Fleet & Equipment

LDJ Logistics and S&S Freight Services' specialised fleet and equipment include:

- Temperature-controlled vehicles and trailers
- Standard 4.3 curtainsiders (tautliners)
- High 4.6 curtainsiders (tautliners)
- Lifting equipment including hydraulic tail gates / tail lifts

Expertise & Experience

Both LDJ Logistics and S&S Freight Services have a long tradition in the Australian transport industry, and knowledge and expertise have been handed down over generations. Some current clients have been with the LDJ and S&S teams for over 30 years.

Technology & Compliance

We utilise technology to achieve operational efficiencies and maintain industry compliance:

- All our vehicles are equipped with GPS live tracking equipment and monitored through Fleet Pursuit
- We use Work Diary Mate and Logchecker for fatigue management
- Rapid Global is used as our contractor management and employee engagement platform.

We operate under NHVAS and WA and national heavy vehicle accreditations.
